WEB DEV PROJECTS

"IRON-GUITAR": Video Game Front End Application (09/2020 - 09/2020)

- An imitation of world-known video game Guitar Hero (using HTML, CSS & JavaScript) where the player needs to hit the note as they align with the fret-board. The higher your streak, the higher the points multiply.
- <https://maxjgruber.github.io/Iron-Guitar/>

"EKAM Games": Website (10/2020 - 10/2020)

- Register, login, edit of the user account; full CRUD experience with selecting video games for your wishlist on a fully responsive website; admin rights and restrictions; using a video game library API
- <https://ekam-games.herokuapp.com/>

"COSMOUSSE": Item Storage Mobile Application (10/2020 - 10/2020)

- Register, login, edit of the user account; full CRUD experience by interacting and pinning locations on a map to save information about an item.
- <https://cosmousse.herokuapp.com/>
